

PolishCopter

Transform your Power Trowel
in a floor grinding and polishing machine!

PATENTED

NEW

PolishCopter®

**PolishCopter®
is an incredible patented innovation!**

It consists in Special Blades that can be applicable on any Power Trowel in order to smooth or to polish concrete floors to give a mirror effect.

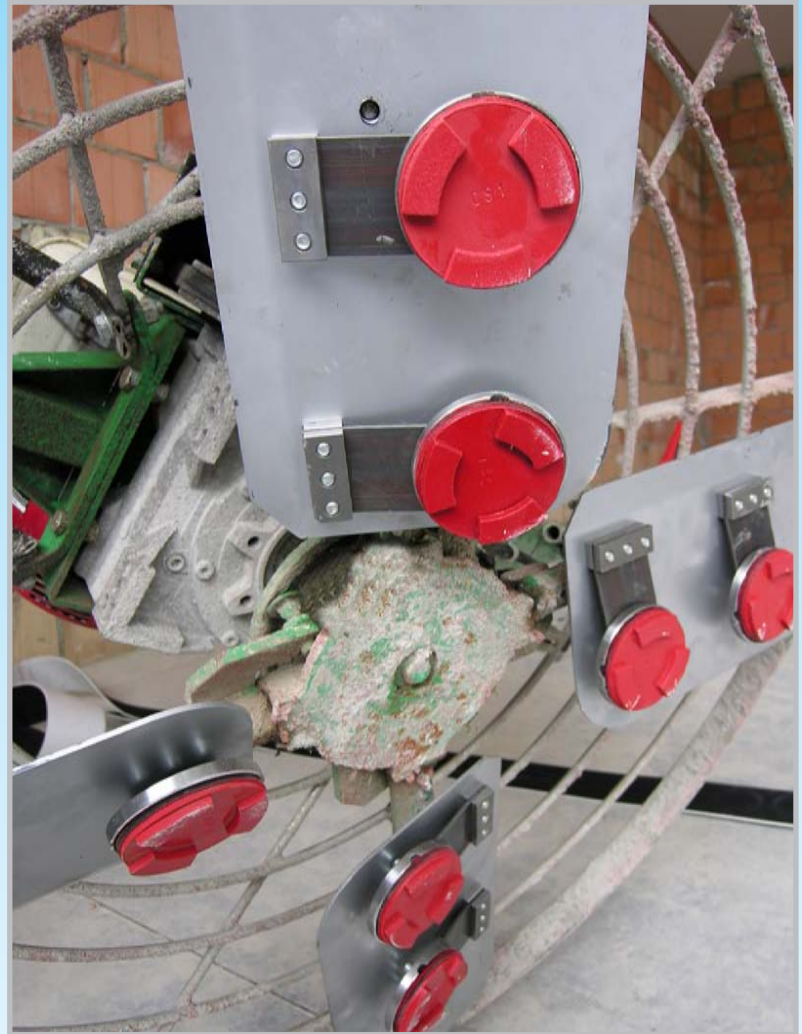

Transform your Power Trowel in a floor grinding and polishing machine It allows to polish industrial surfaces with Superconcrete® system giving it a Mirror effect.

Thanks to this invention it is also possible to use the Power Trowel for finishing operation in case the concrete got harder prematurely.

Ultimately PolishCopter® allows to use of the Power Trowel in order to perform the concrete floor restoration operation by now aged and/or deteriorated.

Using the diamond discs it is possible:

- Polishing Concrete floors with Superconcrete system giving a mirror effect.
- Concrete coloring and polishing giving a mirror effect.
- Restoration of old concrete floors.
- Removal of small unevennesses on concrete floors.
- Floor preparation for resin applications.

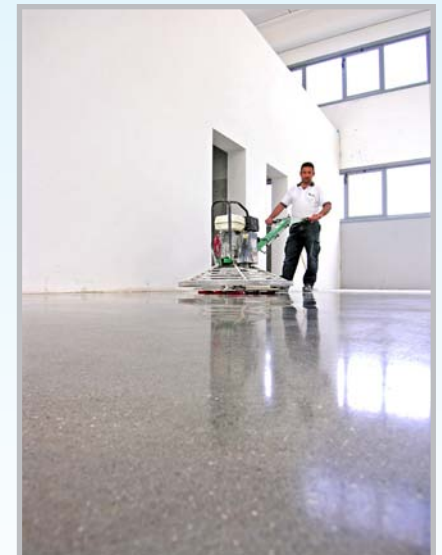

GRINDING DRY SYSTEM

GRINDING WET SYSTEM

POLISHING LIKE MIRROR

Favorable effects: Main advantage is the possibility to make treatments of smoothing/polishing without to mourn uses it of most modern lapping machines and polishers. Thanks to PolishCopter® an elevated finish will be obtained more on the surface of the paving. Moreover with a single machine, that is the single lisciatore, operations of paving restoration can be carried out also in concrete by now aged and/or deteriorated. This concurs a remarkable saving in economic terms for the customer who will not have more the necessity than to acquire and to transport various type of machinery in order to carry out every operation. Savings also from the point of view of the efficiency management of relatively blot some operatrici to the tempistiche of working, as in phase of working of a paving it will not be more necessary to attend, to completed frattazzatura, the arrival in yard of the machine polisher or, viceversa, it will not be more necessary to maintain made unusable in a yard a machine attended polisher in that it comes completed the smoothing.
