## Hurrikane High Speed Burnishing Machine

**THE FIRST AND THE ONLY ONE IN THE WORLD!** Powerful electric machine for polishing and buffing large areas. Advantages “compared with” propane buffing machines: Easy to start. Plug in electric socket and work. No safety issues. In many countries the “propane machines” are not allowed to be used indoor. HURRIKANE can be used indoor our outdoor everywhere. No problem to work at any altitude unlike propane machines. Does not need ADR for transport. No need to transport propane for usage.

## Tornado High Speed Machine

**HIGH SPEED MACHINE** for buffing and polishing floors. Thanks to the “integrated vacuuming system” it cleans and polishes with high productivity. Fitted with a 4 HP motor it is the most powerful mono-phase high speed machine in the world.

DISCOLUX 20" for HIGH-SPEED machines.

**EMME 2000**  
To be used with a regular or high-speed rotary cleaning machine and a red nylon pad.

## Futura Variable Speed 50-500 rpm

**FUTURA** is the first variable speed mono-rotary floor machine from 50 to 500 rpm! Thanks to this technological innovation, it is now possible to perform an incredible range of tasks including scrubbing, polishing, honing, crystallization, vitrification, etc. Futura is the most noiseless scrubber machine.

## Levighetor 600

LEVIGHETOR 600 is a break-through machine that has changed the way marble, granite and any other natural stone floors are ground, honed and polished! Thanks to the klindex's patented 360° directional wheels that allow the machine to move in any direction, the levighetor 600 can work in both large and narrow areas. Thanks to its powerful 4HP motor, the levighetor 600 is the only mono-phase machine in the world that is able to work with additional weights for a total of up to 160kg (350lbs). The levighetor can fit various planetary systems. The planetary is geared, therefore it allows you to run the diamond discs at 200, 800, 1000, 1200 or 2000 rpm depending on your application. The productivity rate is dramatically increased and the result is a more uniform finish with any grit.

Spongelux

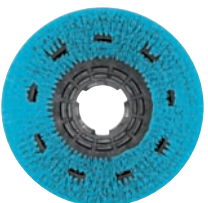

Suitable for all single disc floor machines.

## King Conc POLISHED CONCRETE DIAMOND FLOOR PADS

are impregnated floor pads excellent for restoration & maintaining of polished concrete and terrazzo floors. KING CONC Diamond contains thousands of micro-sized diamonds uniquely impregnated into a poly scrubbing pad. KING CONC Diamond pads are designed to revitalize the gloss and depth of dull concrete surfaces sealed or unsealed / new or old. Available in grit 0,1,2,3 and 4 in all popular sizes they can be used under Hurricane, Tornado, HS bur-nisher and propane powered burnisher, KING CONC pads produce extreme cleanliness and a High level of gloss. Can be used with a single disc scrubber for concrete overlays, floor grinding and honing.
